Center for Mental Health: Recovery Service Line
Last updated: 06/03/20

Is your building open?
Helena, Great Falls, Havre and Conrad main buildings are offering their services during the Covid-19 pandemic while following restriction outlined by the State of Montana.
Each building has all entrances locked and there are doorbells installed for people to ring in order to enter the building. The main door in Helena, Havre and Conrad is where the doorbells are located and in Great Falls the green door on the East end of the building is the access point and the doorbell.
We are requiring hand washing, temperature check and brief Covid questionnaire upon entering each building.

What services are operating?
We currently have our mental health outpatient team seeing clients face to face as needed for individual, group and family therapy, use of telephone and tele-health or Zoom is also an option. We have anger management groups for men and women weekly.
Open access takes place via walk-in or by appointment in Great Falls, Havre and Helena offices.
Substance use outpatient services and prime for life groups are operating via face to face, tele-health or Zoom as determined on a case by case basis.
Peer support services are available (in Helena and Great Falls)
Adult Therapeutic Aid services are available (in Great Falls and Havre offices)
Adult Case Management is available. (in Great Falls, Conrad, Shelby, Havre and Helena)
Our Crisis Response Team is available per normal scheduled hours daytime, evening and weekends.

What services are suspended and what are your limitations?
We are limiting travel between counties and looking on a case by case basis related to the guidelines outlined for Montana and monitoring any possible Covid hot spots.

What need do you have for community volunteers if any?
None.

What other changes should we be aware of?
None.

Is there a URL on your webpage with current operational updates?
No.
